

# 15th Annual q-bio Conference

June 16 – 17, 2022

Colorado State University, Fort Collins, Colorado

We are excited to announce the 15th annual Quantitative Biology (q-bio) Conference to be held at Colorado State University in Fort Collins, Colorado.

Join diverse researchers with the common goal of advancing predictive modeling and theoretical understanding of cellular and molecular biological systems, in coordination with quantitative experimentation.

The focus of the 2022 conference will be learning of biological control mechanisms through modeling and analysis of single-cell data.

Engage in  
lively discussions

Nucleate new  
collaborations

Rekindle  
collaborative  
relationships

Applications and contributed talk abstracts due April 1

Visit [q-bio.org/wp/conference](https://q-bio.org/wp/conference) for:

- Registration and application
- Speaker and committee information
- Venue, lodging, and travel
- Call for abstracts and template information
- Up-to-date session and event information

## Don't miss the UQ-Bio Summer School

The 2nd annual Undergraduate Quantitative Biology (UQ-Bio) Summer School will be held immediately before the q-bio Conference, June 1–15. Enthusiastic students are encouraged to apply now for in person and virtual participation.
